

## Oregon Coast Economic Summit

The Oregon Coast Economic Summit – organized on behalf of the Coastal Caucus – is one of the premier economic summits in the state of Oregon, and the only one organized by a caucus of elected officials. It is a respectful, bi-partisan, space for policymakers, lawmakers and agency managers to come together and talk about the future.

Attendees include coastal and statewide leaders from cities, counties, ports, and agencies, as well as business owners, investors, lobbyists, and nonprofit executives—gathering to track trends and shape Oregon’s economic future. In organizing this conference, we are intentionally offering extended transition periods between innovation sessions and general sessions to maximize networking opportunities. We hope that you can be with us this year, where we will be focusing on Blue Economy and Ocean Innovation towards Oregon’s economic vitality.

---
